## Interesting County News.

The Mexican Herald of Tuesday, March 1, printed in the City of Mexico, says: Mrs. and Mrs. E. W. Merry of Bowling Green, Ohio, and Mr. and Mrs. E. P. Averill, of Perrysburg, are a party of four who arrived in the capital Sunday from California for a week's stay in Mexico City. Some time will be spent in other parts of the republic, and the return to Ohio will be made by way of San Antonio, New Orleans, with a visit to Atlanta, Ga. The party has been in California since December. Mr. Merry is president of the Exchange bank of Bowling Green.

Although the Ohio Central is reconstructing its bridge at Pemberville, all passenger trains and all ordinary freight trains continue to be run over the eastern divisions. Two heavy freight trains, however, are routed over the Hocking Valley via Fostoria. This arrangement will be continued until the reconstruction of the Pemberville bridge is completed. The road is not experiencing any trouble on account of the floods.—Sentinel.

John Currant while climbing Saturday morning on boxes to fix his stove pipe, fell back on a chair and broke a rib. Dr. Pope replaced the fractured bone and Mr. Currant is attending to business in his store.

## DEEDS FILED.

John A. Loe to Fred E. Whitker, 20 acres in Weston township, \$1.  
Jesse S. Bruce to F. M. G. Sibert, 60 acres in Perrysburg township, \$5,000.  
Mary Ann Chamberlain to Harley W. Everett 1-4 acre in Perrysburg township, \$375.  
F. M. G. Sibert to Frederick Kopp, 50 acres in Perrysburg township, \$6000.

## More Riots.

Disturbances of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so effective to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by Bowers & Comstock, druggists.

## WORLD'S FAIR NEWS NOTES.

Even with the four miles of standard gauge railroad tracks laid in the Palace of Transportation at the World's Fair, the immense floor space was not nearly exhausted.

Three acres are devoted to the display of pure foods at the World's Fair. The exhibit is in the Palace of Agriculture and is in charge of Paul Pierce.

Separate quarters will be provided in the Indian reservation for Geronimo and Chief Joseph, the two most noted Indian chiefs now alive. Both have led warriors against the United States and both are actually prisoners, but are accorded much freedom.

The completion of the largest pipe organ ever built has been announced. It is a special exhibit for the World's Fair, and occupies a large room especially built to contain it in the festival hall. The organ has 145 stops. There are 10,000 pipes, some of which are five feet square.

## WAKEFUL CHILDREN.

For a long time the two year old child of Mr. P. L. McPherson, 59 N. Tenth St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night, which made it very hard for her parents. Her mother concluded that the child had stomach trouble and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by Bowers & Comstock.

## AUDITOR HARDING'S IDEA

Bringing to Light Oil Properties Not Now Taxed.

Auditor B. C. Harding has started a new idea of bringing to light many oil properties which are not on the tax duplicate for the value they should be. Deputy Auditor George Spencer and Clerk Brice Hariff have started to draw maps of every township, section and farm in the county. The scale used is eight inches to the mile. These maps of the sections will be turned over to the assessors who will designate on each farm the fact as to whether it is leased or not, the number of oil wells, if any, their condition, the machinery used in operating the wells and much other valuable information.

This idea when carried out will greatly aid the board of equalization in determining the amount of taxes which should be paid by the different oil producing farms. At present the board of equalization can do very little with this matter. Farms on which the machinery is poor, the production low and things in a general run down condition, are assessed the same as those having the same number of good producing wells, fine machinery and big power machine.

The platting of the sections will also give a great deal of information which will be of other value than simply to the auditor and board of equalization. In time the information may be used in court as there are many cases tried each term, when such information is needed.

The idea is expected to dig up a number of leases which are not on the tax duplicate at all or are on for very small amounts. The owners of most of these leases live out of the state and the pumpers manage to dodge the assessor who is not careful to see that proper returns are made.—Tribune.

## Drowned in Creek.

The little son of Joseph May, while standing on the creek bank was struck by a cake of ice and knocked into the water, at Stony Ridge. His playmates ran for assistance and the mother of the child went to the rescue. She waded in the water up to her waist but was unable to save him. His body was found about 24 hours after the accident nearly a half mile from the place where he fell in. The family have the sympathy of the community.—Cor Free Press.

Reconstructs your whole body, makes rich blood. Drives out impurities that have collected during the winter. Hollister's Rocky Mountain Tea is a family tonic. 35 cents. Tea or tablets. Bowers & Comstock.

## Death of Pioneer Lady.

Squire Hum was called to Bowling Green on Monday to attend the funeral of Mrs. Laura Davenport whose death occurred on Saturday last. Mrs. Davenport was an aunt of Mrs. Hum.

Mrs. Davenport had been helpless since the first of the year. Old age was the cause of her death, her age being seventy-five years, six months and one day.

Mrs. Davenport's maiden name was Laura M. Hicks. She was born in Barnard, Vermont, September 5, 1828. In 1845 she married M. S. Davenport and moved soon after to Perrysburg where they lived a short time and then moved to Bowling Green.

Mr. Davenport went to war when President Lincoln called for troops and Mrs. Davenport made her home with Mrs. H. H. Yonker on a farm east of the city. Mr. Yonker had also gone to war.

Mr. and Mrs. Davenport had one daughter, Rosaline, who married James Callin. Mr. Davenport and Rosaline have both preceded Mrs. Davenport to the grave.

## COLDS CAUSE PNEUMONIA.

One of the most remarkable cases of a cold, deep-seated on the lungs, causing pneumonia, is that of Mrs. Gertrude E. Fenner, Marion, Ind., who was entirely cured by the use of One Minute Cough Cure. She says: "The coughing and straining so weakened me that I ran down in weight from 148 to 92 pounds. I tried a number of remedies to no avail until I used One Minute Cough Cure. Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Bowers & Comstock.

## DO YOU WANT STRENGTH?

If you want to increase your strength you must add to and not take from the physical. In other words, the food that you eat must be digested, assimilated and appropriated by the nerves, blood tissues before being expelled from the intestines. Kodol Dyspepsia Cure adds to the physical. It gives strength in the human system. It is pleasant to the taste and palatable, and the only combination of digestants that will digest the food and enable the system to appropriate all of its health and strength-giving qualities. Sold by Bowers & Comstock.

—The game of "Pit" that is now being played by both old and young is one of the most exciting and amusing games on the market. It costs but 50 cents and can be purchased at the JOURNAL office.

## HONORABLE PROMOTION.

The Albuquerque, N. M., Daily Citizen of February 11, gives the following notice of the recent promotion of G. M. Hanson formerly of this place:

A circular was issued from the office of General Manager Martin on the 1st inst., announcing that the office of acting auditor and cashier had been abolished and that G. M. Hanson is appointed as auditor and cashier of the El Paso Northeastern system with headquarters at Alamogordo.

Mr. Hanson began work for the El Paso under Auditor Harter on July 15, 1900, as clerk and was promoted from time to time until he became chief clerk of Mr. Harter, and so well had he performed the duties assigned to him that upon the resignation of Mr. Harter as auditor Mr. Hanson received the appointment as acting auditor and cashier as before stated. Mr. Hanson is a young man, only 34 years old, and from his past successful career has as bright a future as any man could hope for. He began railroad life in Toledo, Ohio, in 1892 on the Toledo St. Louis and Kansas City railroad and has gone steadily onward and upward in railway service.

## MAUMEE RIVER FLOOD.

Gorges Break and Sweep Down the River with Terrible Force.

Last Sunday was a day of excitement and one long to be remembered by people living along the banks of the beautiful Maumee, the river that in Summer flows gently and lazily into the lake and gives no indication of the terrible force and power it can summon when it gets its back up and begins to shake off its load of icy covering.

Since the first partial break-up of January there have been gorges at various points that strengthened as the cold days continued, but the rain of a week ago brought sufficient force to break the gorges, and at noon Sunday the village of Grand Rapids that had been under water for the past week was freed from the flood by the gorge breaking and passing down the river. The ice continued down until it met the obstruction at Waterville which was soon wiped out and the next stop was at Buttonwood island which held until 2 p. m. when it gave way and the mighty torrent carrying with it a mass of ice, swept down upon the Perrysburg-Maumee bridge and the piers of the interurban railway, and three of the latter were swept away while the passenger and belt line bridges withstood the terrible strain, although a large tree crashed against the former and bent the hand rail and destroyed a portion of the side walk.

As the boiling, seething mass passed by Perrysburg the immense fields of ice were lifted and shoved upon the banks as far as a hundred feet in some places above the natural water line and piled the banks with a mass of ice twenty feet high. Immense trees that have stood the shock many former years were turned down or torn from their roots and carried down the stream.

Kingsbury's sand scow was shoyed up the bank about 200 feet and turned around but not damaged.

The electric light pumping house, 30 feet above water mark, was covered with huge cakes of ice and moved from its foundation, but fortunately not badly damaged.

People flocked to the river side to witness the grand and awe inspiring spectacle, and many had narrow escapes from being surrounded by water before being aware of their danger. Many had gone down near the bridge on the railway track and while watching the ice in the river the water rapidly rose and it became necessary to wade to places of safety.

One lady while running through the water fell twice and had a narrow escape from being swept away by the angry water.

Darkness settled down upon the scene with the water at a higher stage than ever known at this point. The street cars were unable to pass across to Maumee. In the morning the once beautiful river was a scene of immense piles of ice, dirt and debris of all kinds, and at this writing it remains the same.

The ice has formed a gorge at Maumee and while the water is about 12 feet above normal at this place, there seems to be just enough outlet through the gorge to allow the water to pass out as fast as necessary and at present there seems no danger of further trouble unless we have heavy rain.

The breaking of the gorge relieved Grand Rapids and Waterville which towns were great sufferers.

A brick house just above Maumee was partially destroyed and the family lost nearly their all.

The barn on Pilliod island was pushed off its foundation and broken in two.

## Tragedy Averted.

"Just in the nick of time our little boy was saved" writes Mrs. W. Watkins of Pleasant City, Ohio. "Pneumonia had played sad havoc with him and a terrible cough set in besides. Doctors treated him, but he grew worse every day. At length we tried Dr. King's New Discovery for Consumption, and our darling was saved. He's now sound, and well." Every body ought to know, it's the only sure cure for Coughs, Colds and all Lung diseases. Guaranteed by Bowers & Comstock, druggists. Price 50c and \$1.00. Trial bottles free.
